

2016 EXHAUST CATALOG

DG PERFORMANCE: QUALITY SINCE 1973

Are you looking to update your exhaust? Let DG help you with this 2016 Exhaust Catalog. During the past year DG has been busy designing and building our V2 exhaust for many new models of motorcycles, Side By Sides and ATV's. New models for 2016 include:

Sport Bikes

Check out our new line of V2's for Sport Bikes including the Yamaha R3, Ninja's and Groms. These great looking V2's are available in both Slip-Ons and Complete Systems for the R3.

Yamaha YXZ1000R

DG now has the first Dual Slip-On for the Yamaha YXZ1000R. This cool looking exhaust looks and sounds awesome. And be sure to look at the all new SX-5 Slip-On for drivers that want a quieter maintenance free slip-on for their Side By Side. The SX-5 offers great performance at a lower exhaust sound than other Slip-ons.

KTM MX & Off Road

DG now is offering V2 Slip-Ons for KTM MX'ers. KTM's are some of the most technologically advanced MX and off road bikes ever produced.

Dual Sports & Off Road Bikes

We have continued adding new models of V2's to Dual Sports & Off Road Bikes including the XT250, CRF250X and the WR250F.

DG Performance has been building hi-quality exhaust systems since 1973. All DG exhausts are made in the USA by our skilled craftsman.

Mark Dooley

SX-5 & V2 SERIES
FOR YAMAHA YXZ1000R

THE V2 SERIES SLIP-ON

DG Performance is proud to present the new V2 Dual Slip-On for the awesome Yamaha YXZ 1000R Side By Side. The V2 Slip-On features an oval shaped aluminum muffler body, adds increased throttle response and provides more power and torque.

THE ALL NEW SX-5 SLIP-ON

This Slip-On is designed for the driver that wants more power but not more sound. The SX-5 is a performance slip-on that increases torque throughout the power curve, yet is not as loud as a glass pack muffler. It features a mechanical baffle system that reduces exhaust sound. 100% Stainless Steel construction. It is a maintenance free performance exhaust that never needs to be re-packed.

- Increased Power throughout the Power Curve
- Reduced Sound compared to Glass Packs
- Maintenance free - never needs repacking
- Stainless Steel Construction
- Billet Aluminum End Cap

V-PRO BUMPERS

Manufactured from 6061 aluminum tubing specifically for the YXZ100R, the V-Pro bumper features a laser cut aluminum plate and is available in either a ball burnished or a textured black powder coated finish.

YAMAHA YXZ1000R APPLICATIONS

MODEL	YEAR	PRODUCT	FINISH	PU#	DG#	MSRP
YXZ1000R	2016	V2 Dual Slip Ons	Ball Burnished	1831-0680	073-4103	\$549.95
YXZ1000R	2016	SX-5 Mechanical Slip-On	Stainless Steel	1831-0679	061-4100	\$499.95
YXZ1000R	2016	V-Pro Front Bumper	Ball Burnished	0530-1364	554-4900	\$224.95
YXZ1000R	2016	V-Pro Front Bumper	Black Powder Coated	0530-1365	554-4900X	\$229.95

For Closed Course Competition Only. Not Intended for Use on Public Roads or Land in California.

V2 SERIES

FOR YAMAHA R3

Laser Cut Brackets

Stainless Steel Inlet

New Aluminum End Cap

New Graphics

THE V2 SERIES SLIP-ON

The V2 Slip-On is a high-performance cat-back slip-on. This unit will increase the performance of your R3 while looking and sounding awesome. This slip-on attaches to the stock catalytic converter and does not require the removal of any factory equipped emissions equipment. Available in either ball burnished or hi-temp ceramic black finishes.

- Lightweight aluminum canister body
- Stainless steel inlet
- Power gains throughout the curve
- Ball-burnished or hi-temp ceramic black canister
- Optional Quiet Core Inserts reduce sound levels
